

INTEREST IN RACE FOR PRESIDENT IS AT FEVER HEAT IN ALL PARTS NATION

AND GREAT PREPARATIONS ARE
BEING MADE FOR THE FINAL
WEEKS.

WILSON AND HUGHES ACTIVE

BOTH TO DELIVER ADDRESSES IN
MADISON SQUARE DURING
NOVEMBER.

(International News Service.)
New York, Oct. 21.—Plans for the
big drive which the republicans and
democrats will make up to the very
eve of the election were announced
here today.

The fourth night immediately pre-
ceding the election will be a strenuous
time for both Wilson and Hughes.

Interest in the campaign through-
out the country is growing to fever
heat. At both democratic and re-
publican headquarters it was said to-
day that the demand for speakers
could not be met.

On Oct. 23-30-31 and Nov. 1 Mr.
Hughes will make four speeches in
cities which have not yet been de-
cided upon. One will be made in
New York, two in Indiana and one in
Ohio. It is likely that the candidate
will speak in Indiana on October 31
and November 1. On the night of
Nov. 4 Mr. Hughes will bring his
campaign to a close with a final
oratorical effort in Madison Square
Garden.

President Wilson will bring his
campaign to a finish on Nov. 4, when
"Home Day" will be observed at
Shadow Lawn. October 8 will be
"New York Day" at the summer cap-
ital and the president will address a
large number of New York demo-
crats.

On November 1 the president will
speak at Buffalo and on the following
day will deliver an address at Mad-
ison Square Garden, when the great
democratic rally of the campaign
will be held here.

E. S. Harris, state chairman, pre-
dicted today that the president would
carry New York City by 100,000 votes.

VESSELS SUNK BY LAKE ERIE BLOW

(International News Service.)

Detroit, Oct. 21.—Two ships were
sunk and several others narrowly es-
caped the same fate in the tremen-
dous gale that lashed Lake Erie into
a fury last night. Six lives were lost,
while 23 persons are reported to have
been rescued from various vessels.
The Marshall F. Butler went down
off southeast shoals near Cleveland.
All the crew were rescued.

The B. L. Flier is reported sunk
this morning 10 miles off from Bar
Point. Six men were reported drown-
ed.

Later this forenoon word came that
the Hartwell has not yet arrived at
Fairport, where she was expected
about noon.

Mobile Schooner is Given up For Lost

(International News Service.)

Mobile, Oct. 21.—The crew of eight
men of the lumber schooner Goldfield
have been given up for lost. The
schooner is 61 days overdue from
Martinique. She was commanded by
Capt. Eden.

Tugs today left here to search for
the schooner. M. A. Achorn dis-
masted 60 miles off port.

SCHOONER WRECKED.

(International News Service.)

Norfolk, Oct. 21.—A Norwegian
steamer arriving this afternoon re-
ported that the schooner Santa Fe
Bowen has been wrecked in mid
ocean with the loss of the captain
and mate.

Seven members of the crew were
brought here.

WILSON TO MAKE A STRONG FINISH

PRESIDENT WILL DELIVER SEV-
ERAL ADDRESSES DURING
NEXT FEW WEEKS.

(International News Service.)

Shadow Lawn, Oct. 21.—President
Wilson regards his Chicago trip as
highly successful, and is elated over
the enthusiastic greeting he received
everywhere.

He is preparing for a strong finish
of his campaign and the wind-up
speech probably will be made at
Shadow Lawn.

This afternoon the president was
scheduled to deliver an address to
the farmers of the surrounding coun-
try. He will be in Cincinnati next
Thursday, returning to Shadow Lawn
on Oct. 28. On Oct. 30 he will go to
New York and Buffalo, and will again
speak at Shadow Lawn two weeks
from today.

Greasers and Ameri- cans Engage in Battle

(International News Service.)

San Antonio, Oct. 21.—Military au-
thorities today were investigating a
battle lasting 45 minutes between Uni-
ted States soldiers and a band of
unidentified Mexicans near San Jose,
Texas, Thursday. No Americans were
injured, according to the report of
Col. Gaston, commanding the Sixth
cavalry in the Big Bend district. Maj.
Anderson of the Sixth cavalry has
been ordered to San Jose to investi-
gate.

HEAD OF MEXICAN EMBASSY IN CHARGE.

(International News Service.)

Washington, Oct. 21.—The Mexican
ambassador today officially denied re-
ports that Luis Cabrera would be re-
lieved as head of the Mexican dele-
gates to the joint conference at At-
lantic City, and succeeded Eliseo Ar-
rendondo as Mexican ambassador here.

Sixteen Pastors and Eight Presiding Elders to Move in November

Sixteen pastors and eight presiding
elders, the largest class in the history
of the North Alabama conference,
will be assigned to new territory at
the meeting to be held in Bessemer,
beginning November 1.

Among the pastors who have served
four years are Rev. R. I. Walston, of
the Central Methodist church, while
Rev. Ira F. Hawkins, of the Decatur
district, is one of the presiding elders
who has rounded out his quadren-
nium.

The only sure thing about the con-
ference assignments, local Metho-
dists say, is that Rev. George Stewart,
former evangelist, will get the rich-
est plum—the first church of Bir-
mingham. He has been transferred
from the Holston conference for this
particular assignment.

Mary Augustine Askew Aged 11 Months, Dies

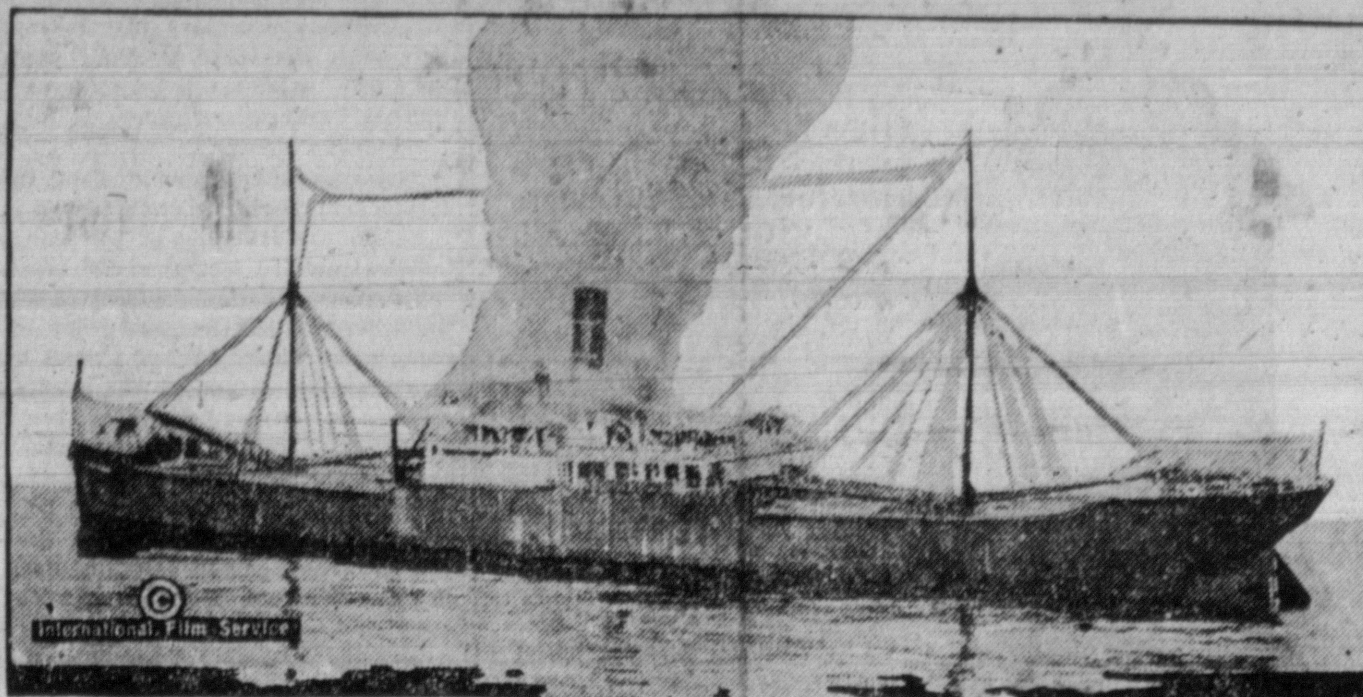

Mary Augustine Askew, aged 11
months, died this morning at the
home of her parents, Mr. and Mrs.
A. M. Askew, East Albany, after an
illness of about one week. Funeral
services will be held from the resi-
dence tomorrow afternoon at 2:30
o'clock, conducted by Rev. R. I.
Walston. Interment at City cemetery.

Austrian Premier Reported to be Shot

London, Oct. 21.—Report
was received here this after-
noon that Austrian Premier
has been shot.

Above may refer to Baron
Karl Stuerzki, Premier un-
til year ago. Successor has
never been named. Later
it was reported that states-
man shot Premier named
Alleer and was published by
Vienna newspaper.

ANTILLA ON FIRE OFF THE VIRGINIA CAPES

Photograph shows the Antilla, the Ward line steamer, on fire off the Virginia capes just as the coast guard cutter Onondaga came to its rescue. Flames were raging so that the crew of the Onondaga found it impossible to fight them. A number of the crew of the Antilla were badly burned. The crew and passengers were taken on board the Onondaga.

TARPEY CARRIES OVAL ACROSS AND ALBANY WINS FIRST GAME

FOOTBALL SEASON OPENS VERY
AUSPICIOUSLY ON THE HOME
GROUNDS, GOODRICH PREP
BEING THE GOAT.

The Goodrich prep heavies, hailing
from Huntsville and led by Coach
Thayer S. Wilson, charged gallantly
on the heavily fortified field of Al-
bany high school Friday afternoon,
only to be hurled back in defeat by
the score of 6 to 0.

Although outweighed by a good
margin, the Albany boys put up a
grand fight and several times held
the foe from across the river for
downs. The work of Adams, who was
knocked out when he came into vi-
olent contact with mother earth, and
Harrison and Tarpey, also of Albany,
deserve mention.

Line plunges and over tackle plays
by L. Buchanan kept the ball in Al-
bany territory the greater part of the
game, but when the goal line was in
danger Albany's defense stood out
like a stone wall. Nebrig and An-
derson were the shining lights in the
local's defensive work.

The lone touchdown of the game
came in the first half when by a for-
ward pass from Harrison, Tarpey
raced thirty yards across the chalk
line. He forfeited the right to kick
goal. Tarpey played the best game
for the victors, his sweeping end runs
and line plunges being a feature of
the contest.

Line-up:
Albany—Goodrich
McCord L. E. J. Baxter
Malone L. T. W. Carlisle
Nebrig L. G. Miller
Anderson R. G. Myrick
Chenault C. Baxter
Clark R. T. Butler
Tarpey R. E. Hutton
Harris Q. B. Williams
Adams L. H. Johnson
Harrison R. H. T. Williams
Turner F. B. Buchanan

Substitutes:—Petty for Adams;
Beauchamp for McCord; Royer for
Chenault; Huller for Nebrig; Spark-
man for Hutton.

Touchdown, Tarpey; head lineman,
Cowan; time keepers, Malone and
Blanton; referee and umpire, Lexie
Hardage.

Circuit Court Docket Still Greatly Crowded

Although Judge Brickell has been
busy for the past week with the
docket of the circuit court and a
number of important cases have been
disposed of, the main part of the
docket is yet to be heard.

The following cases were disposed
of yesterday.

W. E. Campbell and A. H. Cleaver
vs. J. F. Stewart and W. T. Stewart;
jury verdict for defendant.

S. J. Minor vs. Diana Ward; dis-
missed.

Bennie Herring, by next friend,
Walter Herring, vs. L. & N.; jury
and verdict for defendant.

Morgan County Grocery Co. vs. R.
N. McCulloch; jury and verdict for
plaintiff for \$48.03.

P. R. Hutton vs. J. O. Eggleston;
judgment will be against defendant
for \$67.20.

Athens Aggies Defeat Heavy Florence Team

Athens, Ala., Oct. 21.—(Special).—
Presenting an impregnable defense
and using a varied attack, the Athens
Aggies held the heavy Florence Nor-
mal school team scoreless Friday,
while they were making twelve
touchdowns for a total of 80 points.
The Aggies easily outclassed the
Normal boys in every department of
the game, their blocking and inter-
ference being the best that has been
seen on the local grounds this sea-
son. The Aggies made long and re-
peated gains on end runs and off-
tackle plays. They resorted to the
aerial route four times, three of the
passes being successful and two
touchdowns were made by passes.
For the Aggies the long end runs of
Thomas, Burns and Captain Griggsby
and the line plunging of South at full-
back, and the all-round playing of
the quarterback for Florence were
the features of the game. The Flo-
rence team was a husky bunch but
they showed the lack of training and
team work. They were able to make
first down but two times, and the ball
was in their territory practically
every minute of the game.

Mrs. W. F. Garrison Dies at Shawnee Okla.

Was Sister of Mrs. F. M. Hamilton,
of Albany. Many Other Relatives
in County.

Mrs. W. F. Garrison died in an in-
firmity at Shawnee, Okla., yesterday
at 3:15 p. m. Her death was not un-
expected, as she had been in bad
health for a period of three years.
She was a former resident of Albany.
She was born and reared in east Mor-
gan, and leaves a large number of
friends and relatives in Alabama.

Mrs. Garrison left here five years
ago and went to Shawnee, making
that city her home until her death.
She was a devoted member of the
Church of Christ. She leaves behind
to mourn their loss a husband, four
sons and three daughters, a father,
W. M. Self, of Eva, Ala.; three brothers,
Dr. John Self, of Deleone, Tex.;
James Self, of Hayworth, Okla., a for-
mer citizen of Albany, and N. H.
Self, of Eva, Ala. She also leaves
two sisters, Mrs. Nannie Baker, of
Eva, Ala., and Mrs. F. M. Hamilton,
of Albany, and other relatives and
friends in Albany and other sections
of this county.

Daily Cotton Letter

(BY J. L. JULIAN.)

Messrs. Beer wire me today as fol-
lows:

"While trade accounts continue of
an optimistic character especially as
regards conditions in the United
States and all other neutral countries,
the level of future contracts has
reached a level—13c—for winter de-
liveries, as to permit market working
in either direction in the near fu-
ture. By reason of the earliest kiln-
ing frost on record for northwest
Texas, Oklahoma, Arkansas and
Tennessee, with the probability of
heavy frosts in the South Atlantic
states, which is a fitting climax to
this remarkable bull season, it is
claimed that all hope for any further
addition to this year's crop will have
to be abandoned. According to lat-
est rumor returns to the National
Ginners' Association indicate 7,500-
000 to 7,600,000 bales ginned to Oc-
tober 18th vs. 5,711,000 last year, and
a crop of about 11,420,000, exclusive
of linters. Advocates for higher prices
in the future are depending upon
the continuance of an urgent spot
demand, favorable trade reports,
higher prices for cotton goods and
large exports to Europe.

"The more conservative of traders
while realizing the probability of
higher prices next spring or summer
when stocks throughout the world
are likely to be small, believe that a
sharp reaction is in order entertain-
ing the opinion that there will be
less animation in the spot depart-
ment and less desire on part of pub-
lic to buy at high levels prevailing,
and feel that the increasing of stocks
at inland points and at the ports will
weigh on the market.

"Then there is the possibility of
unfavorable foreign and domestic po-
litical developments by reason of the
submarine issue and the near ap-
proach of the presidential election in
the United States. Meanwhile the
world's visible supply of American
cotton is increasing rapidly for the
week 309,000 last year 150,000, other
kinds increased 95,000, last year 11-
000 all kinds increasing 404,000 vs.
161,000. In comparison with last
year the world's visible of American
is now 3,345,000 vs. 3,624,000 or fore-
ign 813,000 vs. 1,153,000 all kinds
figuring 4,158,000 vs. 4,777,000.

"Next Wednesday, Oct. 25, the Cen-
sus Bureau will make a report on
quantity of cotton ginned to 18th inst.
To Sept. 25th 4,062,000 were ginned,
this year vs. 2,904,000 to same date
last year."

ALLIES USE MORE DRASTIC METHODS IN RULING GREEKS

Unless Disorders are Put Down, More Troops Will
be Landed at Athens

KING'S BODYGUARD HAS BEEN REDUCED

Twenty-Five Thousand Men Rally to Venizelos
For Service Against the Bulgarians

(International News Service.)

Rome, Oct. 21.—The allies have
notified the Greek government that
unless the disorders are de-
cisively put down, additional
troops will be landed.

This information was contained
in a telegram from Athens today.
The allies have also ordered the
Greek army to be reduced two-
thirds, back to a peace footing;
also the evacuation of Thessaly.

BIG GERMAN VICTORY.

(International News Service.)

Berlin, Oct. 21.—The Rouma-
nian Black Sea port Tuzla, 12
miles south of Constanza, has
fallen to the Dobruja army of
Field Marshal Von Mackensen,
the war office announced this af-
ternoon.

The Bulgar-German-Turkish
forces stormed the heights north-
west of Toprasai and the heights
to the northwest of Mulevia.
Three thousand prisoners were
taken and 22 machine guns cap-
tured.

The left wing of Mackensen's
army, co-operating with the right
which took Tuzla, broke through
the Russo-Romanian lines south
of the Danube city of La Asova.
Further Russian positions
were captured by the Teutons in
Galicia, northwest of Skomorochy,
the war office announced.

BLOODY FIGHTING IN BIG SERBIAN DRIVE.

Some of the bloodiest fighting of
the war marks the great battle be-
tween the Serbs and Bulgars in Macedonia,
where the Serbians are driving to-
wards Monastir. By capturing Mon-
astir the Serbians will have driven
home a wedge from which they can
begin the real work of reconquering
their kingdom.

The chief incident on the western
front was the great air battle last
night above the Somme battle field in
which seven German machines were
shot down. It is admitted that the
Russo-Romanian forces have lost
some ground in Dobruja, but in
Transylvania they have won ground.
In Russia and Galicia fighting is in
progress over a front of 500 miles.

ALLIED INSPECTOR RULES GREECE WITH IRON HAND

(International News Service.)

London, Oct. 21.—The entente of-
ficer who has been appointed chief in-
spector of the Greek military police
has opened his rule with a drastic
campaign to stop the anti-entente
agitation.

This officer, who has all the pow-
ers of minister of the interior, has in
some respects more authority than
King Constantine himself.

Many pro-Germans are being ar-
rested in Athens on the charge that
they and their agents incited the po-
pular to rioting and hostile demon-
strations in front of the embassies of
the allied powers.

The entente inspector has already
ordered that King Constantine's body
guard be cut down from 4,000 men to
80. Constantine had surrounded him-
self with picked troops. All orders
of the military police must pass
through the hands of the entente in-
spector. Even orders from King
Constantine must be signed by the
inspector before they can be carried
out.

A personal warning has been served
on King Constantine by Sir Francis
Elliot, the British ambassador to
Greece. During an interview in
Athens, the British ambassador told
the king that the patience of the en-
tente powers had been sorely tried
and that the members of the allied

PEACE APPEAL TO PRESIDENT WILSON

WILL BE MADE DIRECTLY AFTER
ELECTION BY AMERICAN
AGENCIES.

(International News Service.)

Washington, Oct. 21.—Regardless of
the outcome of the coming election,
President Wilson will be asked to
make another move for peace.

Word was received here today that
a movement along this line is being
strongly fostered by the American
Mutual Conference committee of
which Hamilton Holt is chairman, and
several organizations whose identity
has not yet been revealed.

The appeal to the president will be
made shortly after election. It will
be made simultaneously with a sim-
ilar appeal to the Pope, and very
probably King Alfonso of Spain, it is
understood here.

Officials say this new peace move-
ment will have the active support of
all the elements that were enlisted in
the original Henry Ford peace move-
ment. While President Wilson's ac-
tion cannot be forecasted, officials
familiar with the general situation
say that they are fully convinced that
he can do nothing at this time.

Hughes to Discard His Gum Shoes and Walk Like a Man

(International News Service.)

Mont Clair, N. J., Oct. 21.—Chas. E.
Hughes on his final campaign drive,
which will begin next Wednesday,
will "cut loose."

The republican presidential candi-
date has "taken his foot off the soft
pedal," his intimates announced to-
day, and from now on there will be a
handling of all issues without gloves.
The vigorous language used in the
Youngstown speech Thursday night
in denouncing the criticisms of Sec-
retary of War Baker and Secretary of
the Treasury McAdoo, was only the
forerunner of a more forcible speech
yet to come. Hughes is resting at a
hotel here today, getting himself into
shape for a whirlwind finish.

Merchant Vessel is Sunk by Submarine Without Warning

(International News Service.)

Washington, Oct. 21.—The state de-
partment this afternoon received the
first official report since the sinking
of the channel steamer Sussex by an
attack by a German submarine on
merchant vessels without warning.

Consul General Skinner at London
reported that a submarine had sunk
the Norwegian steamer Aten without
warning. So far as known no Ameri-
cans were on board.

WANTED: A MOSES TO LEAD THE PUBLISHERS OUT OF THE WILDERNESS OF MONOPOLY.

The paper situation has become so far as the newspaper industry is concerned, the price of news print began to climb about six months ago, advanced gradually up the hill, and then aeroplaned into the blue sky. Within six months, news print quotations changed from 21 cents per pound to 6 cents and better. During that time the cost of production could not have been very largely enhanced, leading to the inevitable conclusion that competition had been stifled, or that the demand so far exceeded the supply that it was merely a matter of conscience with the manufacturers as to how much they could accept and sleep well.

To lament the changed order of affairs, and at the same time to dig down daily and monthly and add to the already bulging wealth of the paper mills, is merely to combine grief with injury. There seems no relief in sight except action on the part of the newspapers, and the only action they can take is to manufacture their own paper. The Federal Trade Commission has been conducting an inquiry, but this seems to have gotten no further than the inquisitive stage. No report has even been made, no recommendation ever that the department of justice should prosecute the monopolists. By the time this slow going body concludes to make a practical move many of the smaller newspapers will be out of business; the larger ones will have been forced to largely increase either their subscription price or advertising rate—or both.

The practical thing to do is for the newspapers to manufacture the paper they use. The practical way for them to do this is to form a co-operative association, conducted along the lines of the Associated Press, which makes no profits and declares no dividends, and which is intended merely to promote the interests of its members. The southern newspapers are numerous enough, big enough, and progressive enough to have a little association of their own. This being true, the demand for a Moses to lead the publishers out of the financial wilderness is the cry of the hour. In the emergency, the Albany-Decatur Daily suggests that Frank P. Glass and Victor Hanson, of the Birmingham News, both of whom are live wires, can perfect such an organization if they see fit to give it the time and attention necessary to its success. The Daily calls upon them to take the initiative and calls upon the press of the Tennessee Valley to and its voice to the insistence of this newspaper.

The New York World, financially independent, has already become a paper manufacturer, as the following new item shows:

Watertown, N. Y.—The Remington group of three paper mills, at Norwood, Norfolk and Raymondville, have passed into possession of the Press Publishing company, which publishes the New York World, according to an announcement made following a meeting of the directors of the Remington Paper and Power company to the effect that the Press company had purchased all of the Remington common stock, amounting to 7,000 shares, and 4,500 shares of the preferred stock, and that the money had been placed in local banks. The announcement was made by James A. Outterson of Carthage, owner of a string of paper mills, who has been managing the negotiations for the Press company.

Mr. Outterson said that no

change was contemplated in either the office force or the mills. The group of mills turn out about 163 tons of newspaper a day, and what would be done with the surplus above that required by the World was not stated.

What the World can do, the newspapers of the South can do. All that is required is a leader in whom the publishers have confidence.

THE JACKSON HIGHWAY SOON TO BE AWARDED.

The last chapter in the Jackson highway contest will soon be written. Both the Mississippi and the Alabama routes have been personally inspected and thoroughly explored by the commissioners who will in a few days award the much coveted honor. Mississippi has the advantage of a shorter distance and fewer troublesome ferries and streams; Alabama offers a more modern roadway, which is already constructed and almost continuous from the Tennessee line to New Orleans; the route 's by far the more attractive and interesting and passes through important cities, the tourist coming south, would certainly want to visit.

The suggestion has been made that the commission with a full knowledge of all the facts will reach a compromise and not award the official designation to either line, but will instead, declare for both an eastern and western branch of the Jackson highway, thus perpetuating a friendly rivalry between the two roads, each vying with the other in upkeep and improvement.

It is well understood that tourists in planning their itineraries, seek to go one way and return another. The great bulk of the travel from the central west, the north and east, with New Orleans as the objective, will go one route and return a different one. Faking this fact into consideration, the commissioners will very probably in the interest of the cause of good roads and the automobilists who use them, give the official appellation to both Alabama and Mississippi, thus insuring for all time two great trunk highways into the south, east of the Mississippi river; each strengthening and feeding the other and each opening up and enriching a magnificent section of our southern country.—Selma Times.

DON'T ROB THE KIDS.

An examination of the savings deposits of sixteen small banks in the state showed that they were divided as follows:

Children	333
Women	361
Farmers and laborers	291
Business men	65

And yet Article 13, Section 250 of the state constitution of Alabama provides that when a state bank fails these depositors shall come last in the settlement. Statistics also show that in the final liquidation of insolvent state banks, saving depositors have, so far, gotten nothing.

The state legislature has submitted an amendment repealing this heathenish provision. All good men know this should be done. As one of them, go to the polls on November 7 and cast your vote for that amendment.

OHIO IS FOR WILSON.

The republican state executive committee of Ohio, which recently caused somewhat of a political sensation in the middle west by relegating the eight-hour law as a campaign issue into the discard, has now taken another significant action. It has decided to throw the switch on the Hughes' so small that it will not do time to the election of a republican governor and legislature.

This action can mean but one thing and that is that Wilson will sweep Ohio. His popularity is so great and Hughes' so small that it will not o to endanger the success of the republican state ticket by mixing it too close with that of Hughes. And so Mr. Hughes goes to the limbo of things that were in Ohio and the state and senatorial tickets will be the sole work of the republicans.

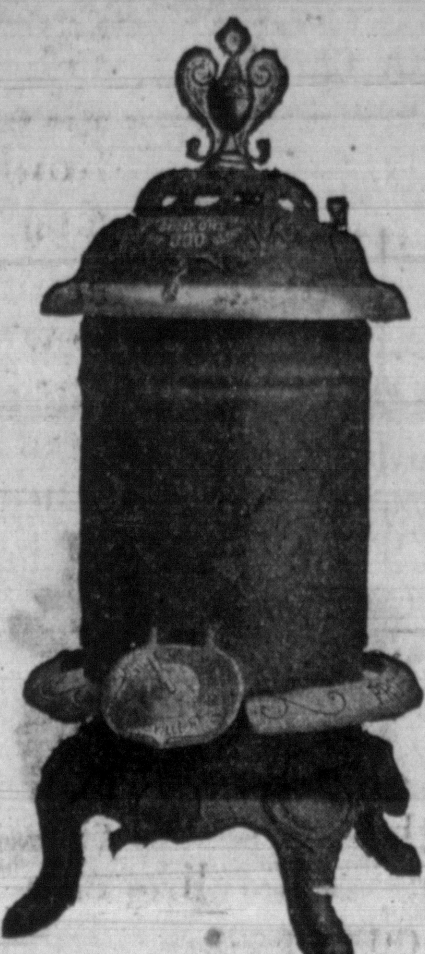

Each day the Daily sees more cause for a Wilson victory. We believe Wilson will win, although we had our doubts some time ago. We have information that Tammany will become very active in New York by Nov. 1—which is plenty of time for that splendidly organized political body to carry the state. Hopes of success for Wilson in West Virginia, Missouri, Kentucky and other doubtful states are amply justified. Wilson is gaining each hour of the day, while Hughes is losing. We believe this gain will keep up until election day and Wilson's re-election will be assured. The trend is all to Wilson.

PROGRESS Comfort Hot Blast

Only one fire to build for the season
BURNS ANY FUEL

PROGRESS COMFORT

A most wonderful airtight hot blast heater. A stove that will burn 50% less fuel giving 50% more heat with 50% less ash and 50% less smoke than any ordinary heater made. Keeping fire from Fall until Spring. Giving all the comfort of steam or hot water heater and as easily controlled as either.

The secret of this wonderful stove lies in its airtight down draft tube; which takes from nature without a cent of cost the oxygen gas in the air, and burns it along with the coal. The result is a very hot and economical combustion.

In the Progress Comfort, we offer a stove which is absolutely safe and sure. A stove which responds to all kinds of weather conditions and burns any kind of fuel.

Will pay for itself in saving of fuel in one season. Don't buy a stove which permits half of nature's heat to pass up the chimney in smoke, but buy a PROGRESS COMFORT and burn the smoke, save the wasted heat, and eliminate the dirt.

For comfort, buy a PROGRESS COMFORT and you will then know what is comfort. 5 sizes 10 Styles.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half-century of wonderful success, and it will do the same for you. You can't make a mistake in taking

CARDUI

The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

READERS ASKED TO MEET RAISE.

Executive Committee of Kentucky Press Association Issues Statement.

Lexington, Ky., Oct. 21.—The high price of print paper and material of all kinds necessary to the business of newspaper making, has called forth a statement from the executive committee of the Kentucky Press association to the newspaper readers of the state. The communication says that in view of the higher costs publishers have been called upon to pay it is absolutely necessary that they in turn must ask more for their product. The statement is as follows: "To the Newspaper Readers of Kentucky:

"The executive committee of the Kentucky Press association wishes to bring to the attention of newspaper readers, and the friends of the press, the serious situation confronting the publishers at this time, and point out some facts which we feel should be communicated to you in our attempt to meet conditions recently thrust upon us. We do this after much thought on the matter, feeling that we are acting for the good of both publisher and readers. Doubtless you have been, or will be, called upon to pay a few cents more on your job, work, and in some instances more for your paper and advertising in cases where subscriptions and advertising rates have been at the minimum.

"In the interest of a free press, we ask you to meet the advance cheerfully.

"There may be ample excuse, slight excuse or no excuse to advance the prices on us as they have been advanced, but the fact remains that we are paying from 50 to 500 per cent more for our paper stock inks, clis, gasoline, metal, etc., than we did eight months ago.

"Paper makers insist that there must be a cutting down in the demand upon them; that the year working three shifts a day, and that at this season of the year when they should be accumulating a reserve stock, they cannot supply the demand. Large publishers everywhere are trying to meet the suggestion of the paper makers by the strictest economy, in which they are cutting down the size of paper margins and granting no return of unsold papers. Small publishers have slight opportunity to economize in this manner. The federal trade commission is deeply concerned and alarmed, but so far seems powerless to suggest feasible or adequate relief methods. Under such existing circumstances few newspapers can continue long without a readjustment. Hundreds of the weaker ones have already gone under and many more are about to suspend.

"There is a remedy and it lies in the strictest economy, advancement of rates on job work, advertising and subscription. It matters not how reluctant publishers are to do this, if it will have to be done if they continue in business and continue to be useful to their readers and patrons.

"In conclusion, we call on all persons who believe in the mission of a free press to co-operate with us in adjusting our business to these new and unheard of conditions.

"The Executive Committee of the Kentucky Press Association."

TRAITS OF ANIMAL CREATION

Even the Most Famous Naturalists Have Been Unable to Explain Satisfactorily.

There are a great many strange facts about animals and insects that seem to defy explanation. Here are a few, an exchange says:

A fly will crawl to the top of a window pane, fly back to the bottom and crawl up again. Hardly ever does it fly up and crawl down. It has been known to repeat this former act over thirty times before stopping.

Hens always scratch for food with the sun behind them. A blind hen always manages to get the sun behind her when scratching, and she will miss but few bits of food.

Cats hardly ever lie with their feet to the fire. In most cases they lie instead with their left side to it. Dogs invariably lie with outstretched paws to the fire.

A mouse overlooks a perfectly safe food supply, sufficient for a meal or two, to enjoy the perilous pleasures of an unlimited store. It will hide near the food and come out to nibble when hungry, for it is not true that a mouse will seek its hole at the first alarm.

If a small snake is kept in captivity and fed and cared for, it will become tame, and after a few months crawl to its captor for food, when approached. This is true especially of the small and harmless varieties.

The unerring ability of the homing pigeon to find its former abode is not due to a sense of location, but rather to a natural instinct, which cats and dogs have displayed when taken from their homes.

Miss Lucile Crutcher, of Athens, a contestant for the Hudson super-six offered by the Nashville Tennessean and American, was in the cities today, the guest of her uncle, John F. Lovin.

Mrs. F. O. Borton's improvement has been so satisfactory during the past week as to probably permit her discharge from the hospital on tomorrow.

Conductor W. W. Smith, of the Lewisburg and Northern, now at Burch's Infirmary, Nashville, is reported as somewhat improved.

Mrs. Grady Williams (nee Miss Mabel Grubbs) and Mrs. Duty, of Nashville, will be the week-end guests of Mr. and Mrs. Foster H. Pointer.

BIBB-BAILEY.

At 10 o'clock this morning, at the Methodist church at Belle Mina, occurred a wedding ceremony that united two of North Alabama's most prominent families, when the nuptial vows of Miss Josephine Bibb, daughter of Mr. and Mrs. B. N. Bibb, and Mr. Zeno Bailey, son of Mr. and Mrs. A. Z. Bailey, of Albany, were consummated. To the strains of the grand old wedding march the bridal party entered the prettily decorated church. An excellent prenuptial program was rendered by Miss Mary Penick, who wore a green charmeuse developed in metal lace trimmings. She was accompanied on the organ by Miss Ivy May Cain. The ushers, Robert Cain, of Madison, and Edwin Garrett, of Mooresville, entered first, followed by the matron of honor, Mrs. Henry Zeitler, whose youthful charms were enhanced by a two-piece suit of gray velvet with harmonizing accessories; she carried an arm bouquet of white chrysanthemums. Miss Margaret Penick, herself a bit of a girl, came next, wearing a morning costume of blue velvet with a blue velvet hat perched on her pretty head; she carried yellow chrysanthemums. The little ring bearer, Mary Augusta Bibb, tripped up the aisle just behind the maid of honor; she was a little darling and looked as if cupid had just sent her with the lily that concealed the ring in its depths. She was followed by the bride, who wore an amethyst two-piece suit, finished with patches of fur, topped by a velvet fur-trimmed hat; she carried American beauty roses and leaned on the arm of her father. They were met at the altar by the groom and his best man, Marvin Rankin. Rev. Claire Purcell, of Sylacauga, performed the ceremony.

Mr. and Mrs. Bailey, with the nuptial party, motored to Athens, where they took the south-bound train for New Orleans. They were accompanied as far as Decatur by the bridal party.

Numerous handsome gifts attested the popularity of the wedding pair.

The bride is a most charming young girl who comes of a long line of distinguished ancestors of Alabama, and has many admirers and friends in these cities. The groom is a sterling young man and is treasurer of the A. Z. Bailey Grocery Company.

INTERESTING EXERCISES.

On last Thursday, the tenth grade of the Decatur high school conducted the morning exercises with an excellent program, which lasted thirty minutes.

Special mention should be made of "The Poem to Decatur," composed by Clio Lovin, and the "Class Prophecy," composed by Lucile Turner.

The program was as follows:
Song, "Alabama," by the class.
Scripture reading—James Clark.
Short review of Alabama Great—

(a) The Field of Literature—Anna Bailey.

(b) The Artists and Musicians—Auline Barnes.

(c) The Statesmen—T. D. Wilkinson.

Solo, "A Little Bit of Heaven"—Gertrude Johnson.

Poem to Decatur—Clio Lovin.

Class Prophecy—Lucile Turner.

"Poem to Decatur."

It lies along the banks
Of the broad Tennessee,
This little city that everyone loves,
And many come to see.

A city by a city,
But the greater of the two;
Strong, firm and resolute,
With people ever true.

It stands in stately glory,
This city of the free,
And the name of it is Decatur,
A metropolis to be.

Isn't It A Fact?

We say that it is. We say so from our own personal experience

That BOYS and GIRLS are harder on their shoes than any other members of the family. Isn't it? We say yes.
That no matter how careful you are in the selection of shoes for the Boys and Girls they do not last as you expected they would. Isn't it? We say yes. And, from actual experience.

THE REASON

It is another fact that Boys and Girls will take from THREE to FIVE times as many steps in the run of a day as their Father or Mother. Now frankly, doesn't this explain it? If one thing is used Three to Five Times as much as another of the same thing is it not reasonable to expect the one to outlast the other? You cannot afford to buy cheap shoes at all, especially for the children. If you have a Boy that you cannot keep shod, bring him to us. Ask for a suggestion.

LEWIE W. HARDAGE,
Administrator.

Assisted.

How many of us pass our time in
waiting for life to give us something
instead of trying to find it for our-
selves! We even go so far as to think
that life owes us always more than we
receive, that we fulfill our mission on
earth by simply living a harmless ex-
istence and that fame and fortune
should be ours by right. It is for this
latter reason that we so often resent
the good fortune of others and allow
ourselves to believe that we have been
discriminated against by Providence.
We do not seem to realize that it is
well worth our while to do something
more than wait for what may or may
not come to pass, that we are the
architects in large measure of our
own success and that we must make
the best of what is before us in order
to learn the rights to fulfill the desires
of our hearts. If we make but little
headway we are quick with our ex-
cuses and are always ready to place
the blame upon others who can in no
way be held responsible. If, on the
other hand, we do succeed, it seems
quite natural to take the credit our-
selves whether we deserve it or not.
The chances are, however, that if we
amount to very much in this world the
credit belongs to us more than to any-
one else, even though we do receive as-
sistance at times from those who take
an interest in us. The point of the
matter is that we must fortify our-
selves to meet conditions as they come
and to do our best to shape them into
happiness and prosperity for ourselves.

Globe-Wernicke

A BOOKCASE in the house is more than
one more piece of furniture. It is the
rallying point of home culture, the chil-
dren's treasure chest, the store of big sister's
romance, brother Bob's spinner of yarns
and the genial companion and philosophic
friend of the elder members of the family.
It is the Heart of the Home. And if it is
a Globe-Wernicke Sectional Bookcase it
grows as the book collection grows, section

being added to section as needed. Books
never overflow and clutter up tables or
open shelves, there to gather dust, grow
dog-eared or be damaged otherwise.

Globe-Wernicke patented features insure
the perfect protection of books—they ex-
clude dust and excessive moisture, and
prevent sticking, binding, warping, sagging
or mechanical difficulties of any sort what-
ever.

Limestone County, Alabama Lands Sure to Advance

In no section of the South are lands more sure to advance than in Limestone County, Ala. This county lies just south of Gile, where the average is over \$50 per acre, while on this side of the line the average is nearer \$25 per acre. Our cheaper lands are naturally attracting the attention of settlers and investors as offering a large margin of profit on what is termed the "unearned increment"—the natural enhancement in value. The soil of Limestone is the kind that readily responds to good treatment. There are plenty of fields here that once would not grow clover, but with a little proper cultivation are now bringing good crops of this legume.

I own and offer for sale the following tracts of Limestone County land which are worth the money asked:

No. 1. 270 acres, half mile south of Harris station, on L. & N.; good 3-horse crop on it, with plenty of rich land that can be easily cleared and cord-wood sold in Decatur; new four-room cottage just erected. I sold adjoining land two years ago for \$40 per acre, but will take \$30 for this. One to six years time, with small cash payment down.

No. 2. 60 acres of unimproved land on Jones Ferry pike; 5 miles northeast of Athens, in growing section; wood will pay for clearing; \$15 per acre. Have just sold 60 acres across pike from it for \$20 per acre.

No. 3. 230 acres of splendid farming land, 3 miles south of Athens, 3/4 mile off Decatur pike, and on a new pike that will be built this summer; has good two-story newly weather-boarded and painted six-room log house, good barn, two good springs and Swan creek; will sell as a whole or divide to suit purchaser. \$35 per acre, part cash, balance on four years time.

No. 4. 80 acres on Decatur pike, 3 1/2 miles south of Athens; strong never-falling spring and Swan creek on east boundary; three-room house, 46-inch woven wire fence on north side and good barbed wire on other three sides; \$50 per acre, as practically every foot is in cultivation.

No. 5. 120 acres on Decatur pike, adjoining No. 4; has seven-room, two-story colonial residence, also three-room tenant house, big stock barn, new 36x50 cattle barn, 60-ton silo, splendid ever-lasting spring, two good wells, Swan creek on east boundary, two miles of 46-inch woven wire fencing dividing place into nine hog-proof fields with living water in four of them. Bur, Japanese and Crimson clover, hairy vetch and winter oats on 60 acres, balance this year was in pasture; corn, cotton, peas, peanuts and velvet beans. This is a typical anti-bellum home, with colonial residence, quarter back from road in grove of oaks and walnuts with gravel driveway out to the pike. Owner used it as summer home last year, and if any place in North Alabama is worth \$100 per acre this is it. It has to be seen to be appreciated; its very appearance reminds one of the "days before the war," when the Featherstons of Virginia owned it. Good terms.

Nos. 4 and 5 face on the Decatur pike and No. 3 lies just across Swan creek from them; will sell separately or as a whole.

No. 6. 160 acres in rich South Limestone, adjoining Col. T. T. Ashford's "The Plantation"; 100 acres of this in cultivation with good tenant houses; rents for \$300 per year; price \$4,000; good terms.

No. 7. 50 acres, 1 mile from State Agricultural and Public Schools; on Huntsville pike, running water; 45 acres in cultivation; \$60 per acre, part cash, balance 5 years. This is really suburban property; fenced but no buildings; nearly half mile frontage on pike. The best "buy" in the county at the price.

In addition to the above I am interested with other parties in tracts on three or four different pikes leading out of Athens. If you wish a new home or a safe place to invest where lands are rapidly advancing, let me hear from you.

HINDOO WEDDING IN NEW YORK CITY

Miss Radhabai Pawar and S. M. Pagar, who were married at the rooms of the Vedanta society in New York. In the rear is Swami Bodhananda, who performed the ceremony. The bride couple wore rose-colored robes. Mr. and Mrs. Pagar are graduates of Columbia university and expect to return to India to engage in government educational work.

ATHENS COLLEGE NOTES.

The entire college family was given a rare treat on Saturday last, when they were taken on a most delightful trip to the woods, for an afternoon picnic. This outing was planned by President and Mrs. Glasgow, and all are indebted to them for an unusually joyous time. There is rarely to be found a more beautiful view of woods than that owned by Mr. Gilbert, just beyond the town and within walking distance from the campus. As dark drew on a great bonfire was lighted and kept burning gloriously all evening. A number of athletic games were played by those disposed to enter into sports, while others wandered around finding nuts, persimmons, etc. A delicious supper was served around the fire, and all departed in highest spirits with many cheers for the president and his wife. Thanks are due to Mr. Gilbert for the use of his woods.

On Wednesday evening the opening number of the fall Lyceum course was given, Miss Hettie Dunaway being the first to appear. She read an adaptation from "Daddy-Long-Legs" in a most pleasing and captivating manner that charmed her audience from her entrance. It is an attractive story, and the artist's interpretation of the character is very satisfying. The pianist rendered several selections in good style, and played accompaniments for a number of songs introduced by the reader.

Several new students have entered college lately, among them being Miss Catherine Gray of Pennsylvania; Misses Agnes Man, Virginian McCulloch and Winnifred Farr.

GLORIOUS BOON OF LAUGHTER

Gift That Has Been Given to Man is Not Shared by Beast, Fish or Reptile.

In a recent number of London Opinion the sage, James Douglas, speculating on that pleasurable emotion which is accompanied by face cracking movements of the muscles of the physiognomy and a brightness of the eyes and is known as laughter, describes the phenomenon as "the human miracle," and says: "No bird or beast or fish or reptile can laugh. You can teach an ape to do almost anything, but you cannot teach him to laugh. The awful solemnity of animals is the one really intolerable thing on this earth. They are cut off from the abiding miracle of humor. The worst consequence of the war is its tragic solemnity. It starves us of laughter, which is the food of the gods. . . . A wise man has warned us to interrogate ourselves when we laugh. I totally and entirely repudiate that diabolical doctrine. Never interrogate yourself when you laugh. You should never look a laugh in the mouth. There are many kinds of laughter, but they are all good. Interrogate yourself, if you like, when you weep. But if you value the well being of your soul, never interrogate yourself when you laugh. Laughter is a good in itself, and an end by itself. The quality of laughter, like the quality of mercy, ought never to be strained. Laugh before you look!"

Special From Gehenna.

The devils were holding a council of war to devise ways and means of inflicting extra special tortures upon poor human beings.

"I know a writer chap," said the first devil, "who has a gift, a pre-eminent gift, for comedy. I will plague him with the false notion that he was born to scale the loftiest heights of tragedy."

"And I," said the second devil—"I know a painter with a true genius for his art. I will put into his head while he is asleep the notion that in his pre-occupation with paint and canvas the world is getting cheated of a great musician."

"And I," said the third devil—"I mind me of a chap—a full-blooded, not too refined sort of fellow—that cannot be happy without wine, woman, and song to cheer his days. I'll poison his life with moral scruples. I'll torture him with the fixed idea that he ought to have been a minister of the gospel and an evangelist to the heathen."

Economical.

Economy was the text of Mr. Jones' discourse one evening after he had been settling some household bills, while Mrs. Jones listened with true wifely interest.

"I don't want to make you unhappy, darling," finished the husband, "but really we must be a bit more careful in future. For instance, look at the bill for petrol. That motor car is costing us rather too much for the time being."

"Yes, Henry, dear," agreed Mrs. Jones. "I'm afraid it is."

Then her sweet young face brightened as she went on:

"But just think what it saves us in carfare and boot leather!"

Out of the Abundant Caution.

An elderly gentleman from the country was at the head of a line of arrivals at a New York hotel, and, after signifying his acceptance of the rate offered him, was invited to sign the register. He consumed such an unconscionable amount of time in this that the clerk became impatient.

"Just sign your name, please," snapped the clerk. "The other guests, too, would like to register."

"See here, young man," exclaimed the old gentleman, "don't you try to hurry me. I don't never sign nothing I ain't read carefully."

AMUSEMENTS

WERE YOU AT THE DELITE LAST NIGHT?

And did you see those pieces of splendid aluminum ware that Kelley & Hawk gave to the ladies. They also gave a large handsome mirror, one of the very biggest presents given during Booster Week. Again tonight at the Masonic these progressive furniture men will give six other pieces of their guaranteed aluminum, also another handsome prize.

Tonight will be your last opportunity to see the Albany pictures and the management promises to give you one of the best entertainments that's been put on during the week. Bring your coupons with you, as this is the night that little baby Gladys is given away. When you see the little thing everyone will want it.

The program of home pictures will be entirely changed from the afternoon program. The Masonic is warm and comfortable, so come out and enjoy the evening with us.

DELITE AND STAR MONDAY.

Thomas H. Ince Production. Featuring H. B. Warner in "The Market of Vain Desire."

John Armstrong, a young minister, is called to a great metropolitan church from a small country parsonage. He has been there but a short time when he is utterly disgusted with the sham and hypocrisy of the fashionable persons of his congregation who affect religion. He is disgusted with all save Helen Badgley, daughter of the millionaire patron of the church.

But one day he is asked to announce from the pulpit the engagement of Helen to the repulsive Count d'Montaigne, and convinced the man is all that is loathsome in manhood, he protests to Helen. She readily admits she does not love the Count, but declares that love marriages happen only in story books.

Pondering this situation in a walk about the streets, he encounters a woman of shame, and there dawns a mad idea whereby he may solve the problem. He bids this woman come to his church on the Sabbath and he will pay her well. Eventually she agrees.

Next morning, in the church, he takes for his theme the degradation of marriage. And calling Belle, the woman of shame, from the vestry, he draws a parallel which no one can mistake between the case of the girl who peddles her pitiful body for gain and the girl who barbers her beauty in the market of vain desire. The scandal that follows breaks up the match of Helen and the Count.

With all his wrath at the new minister, Millionaire Badgley has discerned truth in his words, and he orders the Count from his home. But not before he learns that his wife has actually consented to a minister son-in-law.

SET OF SEAL AND MARTEN

One of the simplest and richest of the new fur sets is of sealskin and marten. The scarf is a straight length of fur. As in nearly all neckpieces the skins are flat and lined with soft satin. At the ends the scarf widens, showing the sealskin as a background for the marten.

The small barrel-shaped muff of sealskin is entwined with a band of marten.

Counted Himself Out.

The superintendent of the Cincinnati zoo was making arrangements to feed the 27-foot python and needed men to hold the reptile during the repast. His advertisement was answered by a serious-looking dandy. "What we want," said the zoo man, "is a strong, husky chap to help hold the big snake while we feed him."

The dandy's jaw dropped, his eyes stuck out like golf balls and he gasped: "Yo—yo—want a man to do what?" "We want a man to help hold the big snake. What's the matter? Don't be frightened, there'll be ten of us—" "Hol' on!" gasped the dandy, making for the door. "Hol' on! Dey may be nine o' yo', but dey won't be ten o' us."

Why "Anuric" is an INSURANCE Against Sudden Death.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery, "Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substance which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

STRENGTH AND BEAUTY

Come with Dr. Pierce's Golden Medical Discovery. This is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart, nerves, brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous instead of tired, weak and faint.

GREEKS ENLIST EAGERLY FOR BULGARIAN CAMPAIGN

(International News Service.)

Thessalonika, Oct. 21.—Twenty-five thousand men have been recruited by the Greek revolutionary government to fight the Bulgarians. The army will not be put in the field however until the number reaches a corps.

Large numbers of troops are arriving daily from Crete and all parts of Greece.

Janina and Petzeza are about to proclaim their allegiance to M. Venizelos, head of the revolutionary movement. It is reported from Athens.

GERMAN FIRE BREAKS DOWN BRITISH ATTACKS.

(International News Service.)

Berlin, Oct. 21.—Heavy fighting continues on the Somme area, says the war office statement this afternoon. It adds that British attacks north of the river between Les Ares and Baucourt L'Abbaye broke down under the German curtain of fire.

BRITISH MAKING PROGRESS AGAINST GERMANS.

(International News Service.)

London, Oct. 21.—British forces pressing on Bapaume along the Al-

bert Bapaume highway made fresh progress last night, the war office announced today.

ITALIANS DRIVING WEDGE IN ENEMY'S FORCES.

(International News Service.)

Rome, Oct. 21.—Italian troops have crossed over into Greece from Albania, occupying the town of Lias-koviki, it was officially announced here today. The advance of the Italians in this sector indicates that these forces will join hands with the allies further to the east for a general flanking movement against the Bulgarians south of Lake Tresca. The movement also puts the Italians in position to drive a wedge between the Austro-Hungarian forces and the German-Bulgar forces in Macedonia.

REVOLTING AGAINST THE AUSTRO-HUNGARIAN FORCES

(International News Service.)

Geneva, Oct. 21.—An uprising against the Austro-Hungarian forces has broken out in Montenegro. Word of the revolt was received here today.

SEVEN TEUTON AEROPLANES SHOT DOWN LAST NIGHT.

(International News Service.)

Paris, Oct. 21.—Seven German aeroplanes were shot down in a big air battle over the Somme front last night. The French war office in announcing the aerial combat said that three of the machines fell in the allied lines. The German railway stations at Noyon and Chauny were bombed by French airmen.

Judge of Probate.

Insurance Man Likes Albany and Decatur

Louis Wolowitz, of Birmingham, field representative for the Mutual Life of New York, who has been in the Twin Cities for the past few days looking over the insurance field, is high in his praise of Albany-Decatur.

Mr. Wolowitz emphatically declared that the state of Alabama should feel proud of these two wide awake towns, adding that both had a great future before them. He asserted that the hotel facilities of Decatur were the best he had found in any town of its size. Mr. Wolowitz is well known in insurance circles and predicts 1917 to be the banner year in that line.
